

(RE)CONNECT WITH YOURSELF & OTHERS

At A Window Between Worlds, we believe in the open invitation to create art as a lived journey. At any time, we can take a moment to reflect on our creations and plant new seeds of possibilities. When change is anchored through art and carried in community, worlds can transform.

You are invited to be part of this change by taking a Window of Time to notice the strength in yourself you most want to connect with. We welcome you to create two puzzle pieces using words, shapes, colors, and images. **The first puzzle piece** can be a reminder to stay connected to that strength within you. **The second puzzle piece** can be inspiration to use that strength as you connect with those around you.

Keep your creations nearby and revisit them when you need encouragement. As we begin this collective journey, we'll have additional opportunities to reconnect, share stories, and celebrate our movement toward change. Visit awbw.org/connect to upload your creations and inspire each other. You can also post on your social media profiles using [#awbwconnect](https://twitter.com/awbworg) and tagging [@awbworg](https://twitter.com/awbworg).
